

I am somewhat of a new-comer to Xm radio. I've had it for about 3 Weeks, and boy let me tell you, I LOVE IT. I get hundred of channels of great music, comedy, talk and TRAFFIC. I believe that the NAB seeking Xm to stop these great services is ridiculous. If I pay monthly for a service, I believe I have the right to be able to listen to Traffic Reports and any local news in my area. So I don't understand why NAB, is petitioning against XM. It's called Free-Enterprise ladies and Gentlemen. Xm has EVERY RIGHT to seek more listeners. Nab just doesn't want to lose listeners/viewers, but guess what? Welcome to America. Competition is the key to the economy.
